ALCOHOL IN SICKNESS.

At one of the London public hospitals a special point is made of giving alcohol to the patients as rarely and sparingly as possible; and each time that one of the physicians does so he submits a special entry of the reasons that actuated him. In the thirty-two years of the existence of the hospital alcohol has only been given seventy-one times. The cases received are exactly like those received by all the other hospitals. For 1894 they numbered 1337 in-patients only. The death-rate among these was 7.3 per cent. For the same year the average death-rate among the other London public hospitals was 9.1 per cent. Therefore the use of alcohol in sickness is not to be regarded as a necessity. Although most physicians prescribe alcohol in solution with drugs for their patients—there was one physician of national reputation who did not believe in using alcohol. Many years ago when Dr. R. V. Pierce decided to put up his valuable "Prescription" for the diseases of women in a "ready to use" form—he used as a solvent and preservative chemically pure glycerine of proper strength, which is a better solvent and preservative of the active medicinal principles residing in most of our indigenous or native plants than is alcohol. Dr. Pierce found that the glycerine, besides being entirely harmless, possesses intrinsic medicinal properties, of great value.

No woman who is suffering from inflammation, from the pains and strains incident to womanhood can afford to be without Dr. Pierce's Favorite Prescription. An honest medicine which has the largest number of cures to its credit and a deserved popularity for two score years all over the United States. Dr. Pierce tells you just what is contained in his "Favorite Prescription."

ITS INGREDIENTS ARE

Golden Seal root (Hydrastis Canadensis), Lady's Slipper root (Cypripedium Pubescens), Black Cohosh root (Cimicifuga Racemosa), Unicorn root (Helonias Dioica), Blue Cohosh root (Caulophyllum Thalictrifolius), Chemically Pure Glycerine.

Among the prominent medical men of the country who recommend the above ingredients as superior remedies for nervous conditions depending upon disorders of the womanly system and for the cure of those catarrhal conditions in the affected parts are: Edwin M. Hale, M. D., Professor of Materia Medica, at Hahnemann Medical College, Chicago; Prof. John King, M. D., Author of the American Dispensatory, Woman and her Diseases, Professor John M. Scudder, Doctors Hale, Ives, Wood, Bartholow and others. Address a postal card to Dr. Pierce for a complete treatise on the subject—sent to you without cost.

DR. PIERCE'S PLEASANT PELLETS cure biliousness, sick and nervous headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Persons who are subject to any of these troubles should never be without a trial of the "Pleasant Pellets" at hand. In proof of their superior excellence it can truthfully be said that they are always adopted as a household remedy after the first trial.

One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels. As a "dinner pill" to promote digestion, take one each day. To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They're tiny, sugar-coated, anti-bilious granules, scarcely larger than mustard seeds.

HEALTH AND HAPPINESS.

How to live in health and happiness is the general theme of Dr. Pierce's Common Sense Medical Adviser. This great work on medicine and hygiene, containing over 1000 pages and more than 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send 21 cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

We Want The Orphans.

The Highland Orphans Home at Clay City is ready for the orphan girls in the mountains. It is a large three story brick house, beautifully situated at Clay City. It is owned by the Society of Soul Winners, and supported by good people everywhere. Orphan girls between the ages of five and thirteen, will be received, if eligible. We hope to take the boys later. Before they are sent, we want to know the name, age, health, character, etc., etc. Only those who have neither father or mother will be relieved at present. We request all those who have any such children to write to Dr. Edward O. Guerrant, Wilmore, Ky. Also will thank all ministers and county officers to give information as to any such children. The Home will clothe, educate and care for these children, for his sake who loves them. There is not a better home in Kentucky. Write at once to Dr. Edward O. Guerrant, Wilmore, Ky.

More Good Roads Gospel.

The Ohio Farmer has the right idea about the principles of road construction. That is, as to the policy which ought to be supported by farmers and developed for their benefit. The Ohio Farmer expresses little sympathy with what are called State-wide highways, but it suggests a substitute in the form of neighborhood roads, radiating from shipping centers.

It costs too much for the farmer to get his crop to market. He complains a great deal about railroad charges and railroad discrimination, and in many cases these complaints are just.

But he ought to complain about his county authorities, about his neighborhood officers, about the men who have not provided good roads to the nearest railroad station.

Each county ought to develop year by year a system of good roads covering the whole territory, but, as the Ohio Farmer suggests be built for the benefit of the farmer, to enable him to get his crops to market. Then if they are useful to the automobile owners or useful to other traffic, well and good.

The truth is, no community can overestimate the value of good roads. Every dollar put in good roads adds \$10 to the land in that neighborhood.

But this does not mean that roads ought to be built regardless of local necessities or local movements. In Pennsylvania recently the Legislature appropriated five million dollars to build a highway from Philadelphia to the Ohio line. Protest came from the farmers about this waste and extravagance, and the Governor vetoed the bill.

There is a prejudice in farming communities against the bicycle, and it is disappearing and it ought to disappear. The farmer ought to watch carefully the development of the automobile.

It has heretofore been the toy of the rich. It is gradually developing on lines which may make it the most efficient aid to the next generation of farmers.

The movement for good roads took on a national aspect when the bicycle was a new instrument of locomotion. The roads remained long after the bicycle craze disappeared, or after it gave place to the automobile movement.

A writer in the Philadelphia Press contends that gossip in the country villages is not nearly so prevalent as it is in the so-called best social circles in the cities—nor it is so vicious. The unkind word, the slanderous word, the character-assassinating word, make up a deal of the small talk of people of small minds and corrupt natures.
